## **Plustek's outstanding products win the prestigious Taiwan Excellence Award**

*The Plustek ePhoto Z300, eScan A250 and NVR Slim Series were awarded with the Taiwan Excellence Award 2017 for meeting the requirements regarding innovation, design and quality.*

**Taipei, Taiwan (Jan. 23, 2017)** – Plustek Inc. ([www.plustek.com](http://www.plustek.com)), a manufacturer of consumer, prosumer and professional imaging and security devices, received the honorable Taiwan Excellence Award 2017 for the photo scanner **ePhoto Z300**, the network scanner **eScan A250**, and the fan-less embedded network video recorder **NVR Slim Series**.

The Taiwan Excellence Award is an internationally recognized symbol for representing quality products from Taiwan to the rest of the world by the Taiwan's Ministry of Economic Affairs. Each potential award candidate is assessed by the professional Taiwan Excellence committee on the merits of their research and development capabilities, design elegance, quality of workmanship and marketing accuracy. This award also represents the technological innovation and dynamics of Taiwan's industry experts in creating distinctive products that provide convenience, functionality and which all help to boost productivity and lifestyle.

The ePhoto Z300 is a very easy-to-use photo scanner, tailor-made for home users, who wish to easily digitize and preserve their numerous photo treasures, and who also need to scan various other documents occasionally. The ePhoto Z300 comes along with an innovative and eye-catching design, and it also makes scanning photos and documents very comfortable, quick, and easy. As soon as the photo or document is inserted into the feeder and detected, the ePhoto Z300 scans, digitizes, and crops the scanned image to its original format automatically.

Several years in the developing, the Plustek eScan A250 is the big-touchscreen standalone network scanner value-priced for small offices. The key-scanning feature is in its intuitive user interface providing

the simplest way to scan in the industry. It allows forwarding documents to any destination in just three steps and deliver files to multiple destinations simultaneously.

Slim NVR is a professional monitoring network video recorder combined the stylish design with industrial standard. It's suitable for installation at sustained high temperatures and harsh environments. The high-strength aluminum cover can get to cool off easily, the anodized process ensure the anti-corrosion and anti-rust effect, so that even the device is installed in the outdoors under the sun exposure, you don't have to worry about any damage occurred. It is the best industrial-level embedded network monitoring equipment.

"We're honored to have our three products be selected for the Taiwan Excellence Award," said Karen Ku, VP of Sales. "We're endlessly striving to advance new innovation and improve quality to ensure Plustek's products meeting customers' need."
