**Experience Plustek eScan A150 in the “Taiwan
Excellence Experiencing Zone” in Mumbai,
Bangalore and Delhi**

Mumbai, India - July 16, 2015 – Plustek Inc. (www.plustek.com/in), a manufacturer of consumer, prosumer and professional imaging, and security devices, is invited to participate at “The Taiwan Industry Image Enhancement Project (IEP)” and will exhibit its award-winning products in a series of exhibitions and experiential marketing sessions in Mumbai, Bangalore and Delhi from July to November.

The Plustek eScan A150, winner of Taiwan Excellence Award 2015, is the first standalone personal workgroup, and network ADF document scanner, tailor-made for small and medium-sized businesses. The key scanning feature is the very intuitive user interface plus its functions, which provide a unique and easy way to scan and to send documents to any destination in just three simple steps, without connecting to a PC, and deliver files to multiple destinations at the same time. Taiwan Excellence Award is a crucial symbol of outstanding quality for Taiwanese products; each potential award candidate is judged by the staff of the Taiwan Excellence committee on the merits of their research and development capabilities, design elegance, quality of workmanship and marketing accuracy. Plustek eScan A150 received this prestigious award with meeting the requirements of innovation, design and quality.

"We're thrilled to have eScan A150 to be selected for Taiwan Excellence Award and to have this opportunity to participate at the IEP to introduce our products to the India market," said Josefina Siao, sales head at Plustek. "The eScan A150 will be presented at the Taiwan Excellence Pavilion and Taiwan Excellence Experiencing Zone in Mumbai, Bangalore and Delhi in the following months. We will be delighted to welcome all visitors for a hands-on trial of the eScan A150." Product information and support will be provided locally by the Plustek customer relations and service team.
