

PRESS RELEASE

Plustek Advances Identity Solutions at Identity Week America and Asia 2023

Transforming the Global Landscape of Identity Management through Cutting-Edge Technologies

TAIPEI, Taiwan, September 12, 2023 – Plustek Inc. (www.plustek.com), a leading provider of advanced imaging solutions, proudly continues its journey in identity solutions following the success at Identity Week Europe. The event surpassed all expectations, with a surge in visitor numbers and a wave of new business opportunities. Building upon this achievement, Plustek is extending its presence to the upcoming Identity Week America [Booth #123, Walter E. Washington Convention Center, Washington DC] and Identity Week Asia [Booth #116, Suntec Convention Centre, Singapore]. These strategic moves underscore Plustek's unwavering commitment to advancing global identity management and innovation. By tackling the complex challenges of identification and authentication across diverse markets, Plustek delivers reliable solutions tailored to the unique needs of various sectors.

Highlights:

- **SecureScan X Series:** The revolutionary secure identification and passport readers, powered by visible/IR/UV light sources and RFID technology, enable lightning-fast data reading, recognition, and extraction. Complying with ICAO standards, they ensure precise parsing of machine-readable zone (MRZ) data through comprehensive authentication measures, including checksum verification, expiration date checks, and other validations. Additionally, these readers swiftly handle the visual inspection zone (VIZ), providing accurate data for various document types. This facilitates smooth data integration with access security, enhancing operational efficiency.
- **MobileOffice Series:** Simplify visitor registration in front office environments with unprecedented efficiency. These robust identification readers excel in secure scanning of diverse identification documents, capturing essential customer details for streamlined data management. The sleek and compact design optimizes front desk space utilization. With advanced OCR technology, image processing capabilities, and compatibility with TWAIN and Citrix, data extraction and system integration are seamless and accurate.
- Plustek amplifies its readers' capabilities with intelligent automation solutions. The SDK empowers developers and system integrators to create customized applications, utilizing Plustek's MRZ recognition and pre-trained VIZ reading OCR for efficient ID data

extraction on a larger scale. Bot applications, featuring AI-powered RPA, facilitate smooth data exchange across platforms, streamlining processes and eliminating manual complexities with automation.

Karen Ku, Vice President of Sales at Plustek, stated, "The success at Identity Week Europe strengthens our conviction in Identity Week America and Asia as catalysts for driving global identity solutions forward. Our latest solutions at these events aim to elevate industry standards and drive impactful innovation in secure transactions worldwide. This not only unlocks abundant business opportunities but also enriches the digital identity landscape."

Plustek warmly invites all to join them at Booth #123 in the Walter E. Washington Convention Center for Identity Week America on October 3-4, 2023, and at Booth #116 in the Suntec Convention Centre for Identity Week Asia on November 7-8, 2023. Enthusiastic visitors can directly address challenges and witness Plustek's identity solutions in action for a seamless experience. Explore the forefront of trusted identity solutions with Plustek leading the way.
