Plustek Debuts Professional Film Scanner Lineup at Imaging USA 2026

Preserving Image Integrity and Color Accuracy with Precision-Engineered Technology

Santa Fe Springs, Calif., December 4, 2025 [Imaging USA Booth #805] – Plustek Inc., a global leader in imaging and document digitization technology, will make its first appearance at Imaging USA 2026, taking place January 11–13 at the Gaylord Opryland Resort & Convention Center in Nashville, TN. Combining precision, efficiency, and true-to-life reproduction across formats, Plustek’s professional film scanner lineup empowers photographers and studios to take film digitization and preservation to new heights.

At the forefront of Plustek’s offerings, the OpticFilm series provides high-resolution scans, accurate color, and professional-grade results with SilverFast Ai Studio software. Key models on display include:

- **OpticFilm 120 Pro:** Building on the success of the OpticFilm 120, this flagship model delivers consistently professional-quality scans for both 35mm and medium-format 120 film, with faster data transfer, intelligent holder recognition, and precise focus for pin-sharp, reliable results.
- **OpticFilm 9000i Ai:** Making its debut, this 35mm-optimized model produces crisp, blur-free scans with improved edge-to-edge clarity through a newly designed 5-element aspherical lens. Enhanced stability ensures precise infrared dust and scratch removal in a compact, portable form.
- **OpticFilm 135i Ai:** Extending the same advanced lens technology to 35mm and panoramic film, this versatile model renders high-quality scans effortlessly, with one-touch automatic batch scanning for wide-format and creative projects.

"Imaging USA 2026 is the ideal venue to connect with photographers who understand the critical role film still plays, whether capturing images today with intention or preserving decades of irreplaceable archives," said Karen Ku, Plustek's VP of Sales. "The challenge is consistency. Professionals need archival-quality results at volume that fit seamlessly into digital workflows and meet tight deadlines. We are introducing the OpticFilm 9000i Ai alongside our established 120 Pro, both designed to be a reliable bridge between analog assets and modern business needs. It is not about nostalgia, it is about performance. When there is no room for compromise, Plustek excels."

Attendees are invited to Booth #805 to explore Plustek’s professional film scanner lineup firsthand through interactive demonstrations and hands-on sessions. Connect with Plustek experts to learn practical tips for efficient scanning workflows and precise image digitization, and see how the latest OpticFilm solutions deliver results that honor the art of photography while ensuring images endure for generations to come.
